Materiality Issues

The AEON delight Group promotes ESG management, which helps resolve social issues through our business and enhances our enterprise value. In 2021, we identified 12 materiality issues in five domains, including the three social issues we aim to resolve through our business and our management principle-'Safety and Security,' 'Labor Shortage,' and 'Environment'-as well as 'Utilization of Technology' and 'Governance,' which we consider essential for achieving sustainable growth. Additionally, we have set 2030 targets for each of the five domains. With regard to materiality and long-term targets, the Sustainability Committee is currently discussing updates in light of changes in the external environment from 2021 onward.

5 A.	12 Materiality Issues	Opportunities for our Group	Risks to our Group	Vision (KGI)	2030 Targets	Results			B. I
5 Areas						FY2021	FY2022	FY2023	Related SDGs
Safety and Security	Providing safe living environments	Growing need for facilities/equipment resilient against disasters and infrastructure outages Growing demand for high-quality services in Japan and abroad	Difficulties in continuing operations due to disaster or infrastructure outage	Contribute to improving people's quality of life by providing services that ensure a safe, secure, hygienic, and healthy environment in and around facilities. Provide a facility environment that protects lives by fully preparing for disasters such as windstorms, floods, and major earthquakes, and quickly respond when such disasters occur.	Expand provision of safe and secure services				11 separation
	Providing hygienic/healthy living environments	Growing need for hygienic/healthy living environments	Decline in corporate image if infectious disease impact is not prevented Growing health risks accompanying increased employment of elderly personnel		• 20% of sales from BCP and infection control-related services*1	3.8%	3.7%	1.5%	3 serverses /W/*
